The University Honors Program, open to students in all undergraduate divisions of the university, is administered by the Honors Council and the director of university honors. Minimum requirement for acceptance into the program is a composite score of 26 on the ACT (or ACT residual) or an 1180 on the SAT. The student must maintain a cumulative grade point average of 3.25 or higher to be inducted into the program in the spring of the freshman or sophomore year and must maintain a 3.25 to graduate as a University Honors Scholar.

The University Honors Program is open to all students, including those attending Troy University on international student visas. For more information and guidance, please contact the Director of the University Honors Program in 212-F Wright Hall, or via email at klabrant@troy.edu.

The purpose of the University Honors Program is to offer the academically superior student a specially designed program, within a supportive community, that fosters critical thinking, intellectual development and social responsibility. This enhanced program is designed to provide a balance of common experience and flexibility addressed to individual achievement as well as a comprehensive framework on which to build disciplinary studies.

The Honors Program also has an honors house on campus which houses both male and female students. Students should consult with the director of the University Honors Program and the director of University Housing for availability and stipulations. The house serves as a residence and a focal point for meetings and activities with the Honors Alliance, faculty and staff in the Honors Program.

The official student voice within the program is the University Honors Alliance. Membership to the University Honors Alliance is offered to any student with a 3.25 grade point average or higher. There is an annual membership fee as well.

University Honors Program Requirements

I. Honors Versions of General Studies

Within the regular general studies requirements, the University Honors Scholar takes a minimum of 7 honors versions of general studies courses distributed over at least four disciplines. These courses are not taken in addition to the general studies courses; rather, they are taken in place of regular general studies courses. When the minimum number of honors versions of general studies courses is difficult to attain, the student, with the permission of the honors director, may take upper level courses in the general studies sequence to replace and count toward the credit of the honors version of general studies course(s). Students who score a 4 or higher on the AP exam in a subject area or a 5 on the IB exam will be awarded the appropriate honors credit to fulfill the 7 courses over 4 discipline requirement. Students who earn an “A” in dual enrollment courses while in high school will be awarded the appropriate honors credit to fulfill the 7 courses over 4 discipline requirement.

II. Foreign Language Courses

The University Honors Scholar must take six hours of one foreign language (classical or modern) depending upon demonstration of proficiency. The student may take an additional language course, in addition to the six-hour requirement, to suffice as one of the seven courses and one of the general studies requirement mentioned above in Section I.

III. Leadership Minor and Courses (LDR)

The University Honors Scholar may take courses in the Leadership program to count towards the honors versions of general studies courses. These courses would count as one of the four discipline and would count toward the seven course requirement. Scholars may also pursue a leadership minor, with approval of the honors director. This minor may count toward the requirement mentioned above. Please see the Leadership Studies section of this catalog for a complete list of courses.

IV. University Honors Courses

The program of interdisciplinary studies with the PEAK Program (Promoting Excellence and Knowledge) begins in the fall semester of the freshman or sophomore year, continues throughout the sophomore and junior years, and culminates in the fourth year with the University Honors Capstone Seminar. The student takes four interdisciplinary seminars. HON 1101 is taken in the freshman year, HON 2200 and 3300 may be taken in the sophomore and/or junior year, and HON 4400 may be taken in the junior or senior year. Transfer students may enter the program with permission of the honors director.

First Year, PEAK Program (one semester)

University Honors candidates will be notified of acceptance into the University Honors Program in the spring semester. Candidates must maintain a minimum grade point average of 3.25 and complete HON 1101 in order to qualify for the spring induction of Honors Scholars. Students are encouraged to take an honors version of general studies or other courses previously mentioned to satisfy the seven courses over four discipline requirement. All honors students must meet with the director of the University Honors Program each semester for advising.

Honors credit in mathematics will be granted for MTH 1125 (Calculus) and higher.

University Honors Program Courses (HON)

Please see the course descriptions section of this catalog for descriptions of University Honors Program Courses (HON).
MINOR IN CIVIC AND COMMUNITY ENGAGEMENT (18 HOURS)

IDS 1101 (3) Global Challenges
IDS 2201 (3) Applications in Public Service
IDS 4495 (3) Capstone Experience in Public Service and Civic Engagement

After completion of IDS 2201, students will select an additional 9 hours in a content area of focus and take advisor approved electives in Context, Public Issues, and Skills and Tools. See advisor in Office of Service Learning and Civic Engagement in Eldridge Hall 122 for approved courses.

ENGLISH AS A SECOND LANGUAGE PROGRAM

Troy University’s English as a Second Language program offers intensive English language instruction for non-native speakers. This program addresses the needs of students who plan to pursue further university study in the United States or who wish to sharpen their language skills for personal or professional reasons. In addition to improving listening, speaking, reading, and writing abilities, ESL classes also increase students’ understanding of American culture and university life. Level I - V courses are offered for institutional credit; up to six credits of level VI courses can be used to fulfill the free elective course requirement towards an undergraduate degree, pending evidence of proficiency. For further information contact the Director of the English as a Second Language Program on the Troy Campus.

The ESL program is available on the Troy Campus. For more information, see the Academic Regulations section of this catalog. For information about the terms of instruction, contact the Center for International Programs at (334) 670-3335.

English as a Second Language (ESL) courses are described in the course descriptions chapter of this catalog.

EXPERIENTIAL LEARNING CREDIT

CROSS DISCIPLINE COURSES (CDC)

3301 Portfolio Development (2)
This is a course in the preparation of an educational portfolio, a formal file or folder of information compiled by students on learning acquired through specific past experiences and accomplishments. Students are required to prepare a portfolio under the guidance of the instructor. The course is required of all students prior to submission of a portfolio to the university for evaluation for experiential credit.

Experiential Learning Assessment (ELA) Credit
Experiential learning assessment (ELA) is a process used by Troy University to evaluate prior college-equivalent learning attained by students outside the classroom and not transferable through any of the standard methods of accepting non-traditional credit. Each student prepares a portfolio that is a carefully organized folder documenting learning outcomes (not learning activities) for the purpose of earning credit for a specific college course or courses. The procedure for students interested in requesting assessment of prior experiential learning is as follows:

a. The student enrolls in CDC 3301 Portfolio Development for two semester hours of credit. A student may enroll in CDC 3301 only once and should plan to develop all materials for receiving academic credit for experiential learning from this one-time enrollment. The instructor for this course:
   1. Provides an overview of the experiential learning assessment program,
   2. Assists in determining whether or not prior learning is appropriate or adequate to request academic credit,
   3. Provides the guidance necessary to prepare an educational portfolio, and
   4. Evaluates the portfolio to determine if the content is sufficient to approve submission for faculty assessment.

NOTE: No more than 25 percent of the degree may be earned by using experiential learning assessment credit or portfolio-based credit. Academic credit earned through experiential learning will not count toward the University’s residency requirement.

b. The student prepares the portfolio, which includes
   1. A statement of the student’s educational goals;
   2. A chronological record, with external documentation, of the student’s education and work experiences;
   3. A clear statement of the specific knowledge and skills not learned in college for which the student desires to receive academic credit;
   4. Information that links the specific knowledge and skills to the student’s goals and educational degree program;
   5. Information that links the specific knowledge and skills of the student to specific learning outcomes of the specific courses for which the student wants to receive equivalent academic credit; and
   6. Documented evidence that substantiates the student’s claim to learning.

c. Faculty assessment.
   Once the portfolio is submitted to the faculty for evaluation, the faculty member uses several methods of assessment, which include product assessment such as an original computer program, interviews, oral or written examinations, simulations, performance tests, and/or essays. The faculty member makes a recommendation to award or not award the hours of credit. This recommendation is made to the dean of the college for which equivalent academic credit will be awarded for experiential learning activities and to the associate provost/dean of undergraduate studies for final approval and confirmation of awarded credit to the university registrar.

d. Fee Payment
   The tuition and/or fees for CDC 3301 is charged whether or not experiential credit is earned. In addition to tuition charges, a per hour charge for credit awarded is also charged to the student’s account.

e. Credit is then posted to the student’s transcript by the University Registrar.
Students who are interested in preparing for careers in the professions will find many such opportunities at Troy University. Considered among the best available, Troy’s pre-professional programs feature small classes, special academic advisers, free tutors, exceptional laboratory facilities and an outstanding and well qualified faculty.

Pre-law

Admission to accredited professional schools of law requires from three to four years of college preparatory work with preference given to applicants with the bachelor’s degree. Law schools generally do not prescribe a particular major or course of undergraduate study as a prerequisite for admission. All such schools emphasize the important of excellence in whichever course of study is pursued. For students planning to enter the profession of law, it is recommended that a student pursue a bachelor’s degree giving emphasis to such fields as English, history, political science, criminal justice, social science, speech communication or business. Troy University offers an Accelerated Law Curriculum (3 year option) for interested students. Students will complete the requirements for the Social Science major—General Science concentration by the end of their third year of study. Students may then apply to a partnered institution’s law school program. After 30 semester hours of law courses outlined by the partnered institution, students may be awarded a Bachelor of Science in Social Science with a minor in Legal Studies and have completed one year of Law School. Students applying for early admission must meet the requirements set forth by the partnered Law School program. For individualized advice about courses appropriate for law school, students may consult with the advisers for the Pre-Law Society.

Pre-engineering

Program requirements among the professional schools of engineering vary, although certain courses are common to most such schools, particularly during the first two years’ work. Students may complete selected course work at Troy University within their first 1-2 years of study before transferring to a professional school. The choice of the professional school and the particular field of engineering will determine the required course work and the most appropriate time for transfer. Students who are interested in pursuing this route to a professional engineering degree should meet with their assigned pre-engineering academic advisers prior to registration each term.

Pre-health Professions

Courses required for admission to these professional schools are available at Troy University. Admission to these schools is highly competitive. Troy University recommends that students who plan a career in healthcare such as medicine, dentistry, optometry, pharmacy, chiropractic medicine, veterinary medicine, or osteopathic medicine follow a program which leads to the bachelor of science or bachelor of arts degree. Although professional schools require many common courses, they differ slightly for a small number of specialized courses. For this reason, students should consult with their pre-health advisors to identify these courses.

Pre-veterinary Medicine

Programs leading to the doctor of veterinary medicine degree normally require four years of preparatory college work and four years in the professional school. Four years of the preparatory work may be taken at Troy University.

Pre-agriculture and Forestry

Students who plan to follow courses of study leading to degrees in agricultural engineering, animal or poultry husbandry, dairying, farm management, horticulture, wildlife, agriculture education, or forestry may complete as much as the first year’s work at Troy. Certain courses required during the second year also are offered, but before continuing into the second year, the student should carefully examine the requirements of the professional school selected.

Other Pre-professional Career Paths

Troy University also provides appropriate courses of study for a number of other professional and vocational fields, including pharmacy, home economics, land surveying, physical therapy, public administration, seminary training, etc. These programs require general preparation (as required for the bachelor’s degree) as a prerequisite for admission to the professional or graduate school.
